Buttermilk Breaded Oysters

Singleton only uses the freshest domestic Gulf oysters that are produced from certified oyster beds. To insure consistency and quality, Singleton oysters are only packed in the winter months.

Our oysters are hand-shucked and inspected in preparation for the batter process. They are dipped in an old-style Buttermilk Batter to give that home-style look and then hot-oil blanched to set the coating. The oysters are then individually flash frozen to seal in that just caught flavor.

This product truly appears as though the chef has hand-prepared to order.
